Width - **1 FEET** , Height - **10 FEET** , Thickness - **8 MM**

“ **SAPPHIRE** ” SERIES

Strength, Style , Sapphire: The PVC Series You Can Trust!

The Sapphire Series is a **Significant Step Forward** in the PVC Industry. Launched for the first time in the year 2021 this was a breakthrough product in the PVC Segment. So, **DELBY** has worked towards its durability, mindful selection of designs and colours, sustainability & its affordability.

It is a compelling alternative to the traditional, local PVC options in the market which are weak & brittle. We at **DELBY** want that applying PVC Panels which is otherwise a convenient option, should not turn into a nuisance, That's why we came up with this **REVOLUTIONARY Series - The SAPPHIRE Series**, to address all the problems of local, unorganised, copied pvc products.

Experience **DELBY'S** unique experience in the segment of PVC Products panels with the **Sapphire Series!**
Design and Durability that lasts!!
